

The Thyroid Cure

The Functional Mind-Body Approach to Reversing Your Autoimmune Condition and Reclaiming Your Health!

Dear Doctor,

I'm sure you're aware that the epidemics of chronic inflammatory disease are spiraling out of control worldwide. If you are practicing medicine, it's likely that as many as 80% of your patients come to you for the management of a chronic inflammatory condition such as autoimmunity, heart disease or cancer. If you're like many of your colleagues, you're frustrated because current interventions for chronic inflammatory illness only work for a short time (if at all) and your patients are left with even more complications and side effects from treatment.

Fortunately, a new paradigm is emerging. An increasing number of practitioners are successfully helping patients reverse chronic illness by addressing the root cause(s).

It has been my experience that many chronic diseases share many of the same underlying triggers. Such as:

- Chronic emotional stress
- Poor coping mechanisms (such as food and substance abuse)
- Poor nutrition
- Allergies and sensitivities
- GI imbalances/leaky gut
- Adrenal fatigue
- Hormonal imbalance
- Infectious and toxic stress

There are now predictable intervention therapies and lifestyle strategies that anyone can begin to use to get better. I detail these in *The Thyroid Cure – The Functional Mind-Body Approach to Reversing Your Autoimmune and Reclaiming Your Health*.

Your patient has been learning how certain lifestyle risk factors are contributing to, if not causing, his or her chronic illness and is ready to take action and heal! I extend an offer of collaboration to you and ask that you support your patient in identifying and treating the underlying triggers of his or her condition.

It's been my experience that many chronic illnesses can be successfully and quantifiably reversed when the underlying triggers are uncovered and removed, and the body's core systems are restored to balance. For more information, please visit my website: www.michellecorey.com.

Warmly,

Michelle Corey
